

Research Groundwork at GT

G.T. College formed a Reading Club for the exchange of academic ideas. Monthly meetings are held with a reading focus on MI education.

G.T. Reading Club

I felt so excited during the whole meeting since Clara and all members there were very enthusiastic and dedicated. Everyone wanted to contribute ideas. And I have benefited greatly from the discussion. I am looking forward to the next meeting.

Dr. June Luo
(Mathematics, 29 Sept 2020)

This is an invaluable experience for me to learn the theory of multiple intelligences and apply it to G.T. College and to be provided with an opportunity to share my thoughts with my colleagues. I am now embarking on a journey in search of what I would like to pursue in the academic field. It is such a privilege for me to be part of the Reading Club. I look forward to the upcoming sessions.

Mr. Billy Lee
(Liberal Studies, 2 Oct 2020)

It has never occurred to me that reading together can be that fun and powerful. The silent magic of reading together and picking a small topic for sharing is that we have a common base for sparking more thoughts and giving surprises to what's called the power of knowledge and observation inside ourselves and others.

Dr. Clara Cheng
(English Language, 10 Oct 2020)

I believe the first Reading Club meeting was highly productive. It was good to participate and share ideas about multiple intelligences and how they are applied in G.T. College. I am looking forward to the next session in a few day's time.

Mr. Mark Sullivan
(English Language, 22 Oct 2020)
